

What is the EDLS Leadership Resource Centre?

The EDLS Leadership Resource Centre (LRC) is a framework designed to put the Harvard ManageMentor content within a framework that is familiar with your organization. Whether the framework be competency, project, job role, function or any other category you can map and present the content in a structure familiar to your organization rather than trying to change your organization to understand someone else's framework.

What can the Leadership Resource Centre do for your organization?

The Leadership Resource Centre (LRC) allows you to create a unique branded customized implementation of Harvard ManageMentor to start benefiting your organization in a matter of days as opposed to weeks or months. Custom links can be added to the site to refer users to additional documentation or resources you may have including documents, presentations, videos, or collaborative forums you may be using currently.

LRC Highlights

Content in Context – have the Harvard ManageMentor content displayed in a framework that is familiar to your organization

Custom Resource Links – add links to every page for additional content or resources specific to your organization

Branding – present a site with your logo and colours without spending thousands in additional customization fees

Leadership Video Insights – add a wealth of additional Leadership Videos from HBR at no added cost

Rapid Implementation – rather than spending months negotiating with an LMS company or your IT Department for resources be up and running in a matter of days

Responsive web design – both the LRC and the Harvard ManageMentor content now run on multiple platforms and devices seamlessly
